

AGENDA

11.00-12.00

Welcome

Håkon Jentoft, City of Oslo and Chair of the Urban Partnership Agenda on Circular Economy

Bio-waste management in Europe: capturing of bio-waste in cities and municipalities

Henrik Lystad, Chair of the European Compost Network

Research and innovation activities on urban circular bioeconomy

Andrea Accorigi, European Commission, DG Research & Innovation

The role of the revised waste directives in accessing urban bio-resources to enable the transition to an urban bioeconomy

Jorge Diaz Del Castillo, European Commission, DG Environment

Barriers identified in the value chain of bio-resources

Ingunn Dale Samset, Urban Agenda Partnership for Circular Economy

12.00-13.00

Barriers and solutions for implementing separate collection of biowaste in urban areas: Case studies from cities and municipalities:

Moderator: Håkon Jentoft, City of Oslo

Case study - Brussels

Katrien Ver Elst, IOK Avfalbeheer, Belgium

Case study - Porto

Carolina Lucas, Porto Ambiente, Portugal

Biowaste collection in large cities across Europe: new case studies

Michele Giavini, CIC's senior expert, Italian Compost & Biogas Council, Italy

13.00-14.00	Networking Lunch
14.00-15.00	<p>Barriers and solutions for sustainable use of bio-resources in urban areas Moderator: Vanya Veras, Municipal Waste Europe</p> <p>Cities: Oslo case—digestate use by local farmers Espen Govasmark, City of Oslo, Waste to Energy Agency</p> <p>Circular Amsterdam Maarten Mulder, Amsterdam University of Applied Sciences</p> <p>Industry: IMECAL and Project URBIOFIN: Demonstration of an integrated innovative biorefinery for the transformation of municipal solid waste (MSW) into new biobased products Caterina Coll Lozano, IMECAL</p> <p>Panel discussion</p>
15.00-15.45	<p>Roundtable discussion Moderator: Vanya Veras, Municipal Waste Europe</p> <p>Introduction by Europa Decentraal David Schutrups, Europa Decentraal</p>
	Summary of roundtables
15.45-16.00	Conclusions and proposals for the way forward
