

P-PIPE/P-CABLE

P-PIPE/P-CABLE Basic Data Sheet

P-PIPE/P-CABLE Basic EWD Universal seal for cables + pipes

The two-fold press seal.

The P-PIPE/P-CABLE Basic HSD 100-EWD press seal is a universal seal in core drillings or wall sleeves with \varnothing 100 mm for 1 cable or pipe with \varnothing 24 – 44 mm and 4 micropipes with 7 – 12 mm.

The adjustment to the required diameter can be done quickly and easily using the segment rings. Thanks to the integrated blind plugs the HSD 100-EWD is also suitable for sealing unused holes.

Think of the future –

Water or current + glass fibre = 1 seal.

P-PIPE/P-CABLE Basic EWD
Article design. HSD 100-EWD

P-PIPE Basic – the advantages at a glance.

- Gas- and watertight up to 1 bar
- Stainless steel V2A (AISI 304L)
- For standard water pipes and electrical cables from \varnothing 24 – 44 mm and for 4 additional glass fibre cables between \varnothing 7 – 12 mm
- Easy to install
- With integrated torque control
- Fitted with a U-profile: maximum stability with minimum material use

Hauff-Technik Active Principles – the intelligent difference

Reliable and controlled.

Mechanical press seal systems for cable and pipe sealing. Closed, split, all shapes and sizes.

Universal and intelligent.

For cables and pipes.
