

Kirje "nokialaiselta" -- Bush = 666 (uusin 7.1)

Hei, tutkin netistä Googlen avulla josko löytyisi todisteita George W. Bushin ja pedon luvun 666 yhteydestä. Löysin ainakin yhden mielenkiintoisen sivun:

http://www.geocities.com/trebor_92627/Bush.htm.

Siitä yksi ote:

If you add up the name 'George Bush' in Hebrew letters it comes out:

G = 3 (gimel)
e = 5 (heh)
o = 70 (ayin)
r = 200 (resh)
g = 3 (gimel)
e = 5 (heh)
B = 2 (beth)
u = 70 (ayin)
s = 300 (shin)
h = 8 (cheth)
total = 666 (Antichrist)

Voit tarkistaa itse pitääkö paikkansa. Kyllä nyt uskon vakaasti, että George W. Bushilla on oma 42 kk:n valtakautensa, joka ehkä alkoi jossakin kohtaa Irakin sodan valmisteluvaihetta (mahdollisesti Bushin päättäessä lopullisesti hyökkäyksestä?). Merkittävää on, että Bushista saadaan pedon luku hebrealaisilla kirjaimilla (sekä myös monella muulla tavalla, huom. ASCII-koodi), joten esim. Mellerillä ei pitäisi olla mitään nokan koputtamista.

Tällä (mainiolla) nettisivulla viitataan myös siihen aikaisemmin mainitsemaani mahdollisuuteen, että presidentti Bushin tärkein poliittinen neuvonantaja Carl Rove olisi toinen peto eli väärä profeetta tässä tilanteessa:

The Beast and His Brain: One of the mysteries of Revelation has been the identity and connection of a second beast who rescues the antichrist and serves as his prophet. Rev 13:12 "He exercised all the authority of the first beast on his behalf, and made the earth and its inhabitants worship the first beast." Carl Rove rescued bush from political death after his defeat in a Congressional race, and since 1993 he has served as the brains and the cleverness of the antichrist. There is even a new best-selling book by that title "Bush's Brain". No mere presidential advisor has ever held so much power. He is often referred to as 'President Rove', and even other people within the bush regime worry about his growing influence and power. Every decision bush makes is calculated and spun by Rove for political effect, with absolutely no regard for the truth. A true prophet divines the will of God in order to help lead a nation in the path of truth and righteousness. But a false prophet like Rove can predict the moods and weaknesses of the people in order to manipulate public opinion and start wars under false pretenses in order to advance his evil agenda.

Exhibit #4a: *the Bush/Nero Connection*

Who is the **Real** Anti-Christ? Over the last 2,000 years many have claimed to know. All of them have seemingly been wrong. So what makes me any different? The plain facts, and an historical perspective..

The term "antichrist" was first used in the most recent books of the Bible, (1 John 2:18) "*many antichrists have made their appearance.*" Most Biblical scholars believe that St. John was referring to members of a Gnostic Christian cult. For the early church, [all those actively working against the spirit of Christ](#) were considered antichrists, whether or not they called themselves Christians. As St. Augustine would later put it: "There you have the Antichrist – everyone who denies Christ by his works."

At the same time, the early church believed that there would be one individual, a single man whose evil deeds would far exceed all the others; and that this individual would make his appearance just before the second coming of Jesus. Jesus called him (Mark 13:14) "*the abomination of desolation*" Paul referred to him as the (2 thess 2:3) "*man of sin*" and "*son of perdition*". John in his letter and in his Revelation to the church called him "*the beast*" or "*antichrist.*"

Most scholars believe that the [antichrist in the book of Revelation was Nero](#), emperor of Rome from 54 - 68 AD. Nero was the first emperor who persecuted the church with a vengeance, blaming Christians for the burning of Rome, and torturing them to death in the Forum. Both St. Paul and St. Peter were executed by Nero. After Nero was forced to commit suicide, it was widely believed that Nero was still alive in Parthia (the middle east), hiding out (much like Elvis), and that he would soon return to reclaim his throne. As late as the fifth century AD, Lactantius (240-320 A.D.), Jerome (340-420 A.D.) and St. Augustine (354-430 A.D.) all still assumed that the Antichrist would turn out to be a kind of resuscitated Nero.

Were they wrong? Certainly Nero the man never returned from the dead, and the church eventually looked elsewhere for the antichrist - but that doesn't invalidate the prophecy. Nero has indeed returned, but not as Nero the Roman emperor, he's returned in spirit as George W Bush, the 43rd (P)resident of the United States.. Nero was only a foreshadowing of the last antichrist. This final and most powerful antichrist in history is prepared to finish the evil campaign that first began with Nero almost 2,000 years ago.

Most Biblical historians, including Barclay, believed that 666 was in [reference to Emperor Nero](#). The Hebrew transliteration (without vowels) of Nero's Latin name, Caesar Nero, (QWSR NRWN) adds up to 666 using the Hebrew alphabet above. But St. John gave us this number (666) rather than his name (Nero) so that we could identify him today. Because as I have already demonstrated conclusively in exhibit #1, George Bush has the mark of the beast like no other man in human history.
