JAKE PRODUCTS

JAKE 350, JAKE 350 HD, JAKE 350 DG, JAKE 354 HD, JAKE 354 DGHD

For mounting a 3-point fastened crane, digger and arm mulcher on a tractor.

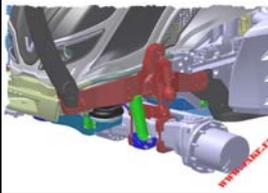

JAKE 600, JAKE 800, JAKE 804, JAKE 800 Tilt, JAKE 804 Tilt

For mounting a flange fastened forwarder and harvester crane on a tractor.

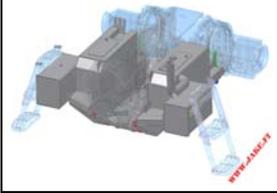

JAKE Boom Support

For stabilizing road driving of a tractor-crane combination and giving more front wheel traction in a forest by sharing the crane weight to the front axle.

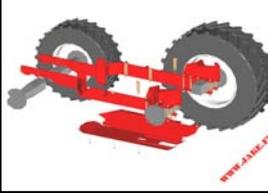

JAKE Front Axle Stabilizer

For improving stability of a tractor-crane combination by locking the front axle oscillation and suspension. Automatically activated by an electric handbrake and (or) manually by an on-off switch.

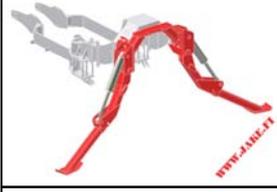

JAKE Forest Tank + Armor

For the best possible bottom shape and clearance. Includes an armoured fuel tank(s), a premium bottom protection, an armoured battery case, a lockable tool box, stairs for a forest use, etc.

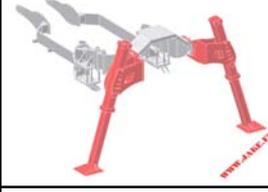

JAKE Armours

For protecting the basis of a tractor cabin in forestry use. Includes protections for fuel and AdBlue tanks.

JAKE Standard Legs JAKE Heavy Duty Legs

Flap-down legs for improving stability of a tractor-crane combination.

JAKE Tele Legs

Fast-acting telescopic legs for improving stability of a tractor-crane combination. Several different mounting setups for distance from the tractor, height from ground and leg angle.

JAKE Front Pump Unit

For producing sufficient oil flow for a harvester head or a big crane. 120 litre tank, LS-pump, cardan, breathing cap, return filter, oil level and temperature gauge included.

JAKE Oil Tanks

For hydraulic oil. The capacity 110 litres for J600/800/804 and 120 litres for J800LC/804LC. Return filter, breathing cap, oil level and temperature gauge included.

JAKE Front Wheel Weights

For balancing a tractor nose of a tractor-crane combination by increasing front wheels weight without increasing axle load.

JAKE 35xx Front Linkage

A sturdy 2-action Front Linkage with an adjustable arm width and full length Aid Frame for mounting attachments, such as snow ploughs and bulldozer blades, to a front of a tractor.

JAKE 800 LC, JAKE 804 LC

For mounting a "truck-mounted" loading crane on a tractor. Possible to equip the crane with a man basket, drill unit, etc.

JAKE LC Front Legs

Outrigger type legs for excellent stability for a combination of a "truck-mounted" loading crane and a tractor. Hydraulic widening and manual 180 deg tilt for the legs.

JAKE D114 Digger

A modern digger for a modern tractor. Operated by an electric valve with mini joysticks on armrests. Powered by tractor or hydraulics or by an additional PTO or front pump unit.

JAKE D107 Digger

A farm digger with its own hydraulics, telescopic dig boom and side shift of the booms. Possible to equip with a log and energywood grapple.
