

# Training services

*Do you need to develop your organization's know-how? The starting point for our training services is pragmatism. Our training is heavily on job-based learning. Learning-activating situations are supplemented with different kinds of information*

- Our training services:
  - Research and development training
  - Life cycle training
  - Operations' development training
  - Project training
  - Training in bioeconomy
- *In our network there are several persons eligible act as a vocational teacher. These persons will act as a teacher and a person in charge on our trainings, and take care of learning objectives. Besides this, many of our network members has given courses in their work.*
