

The VAG CAN PRO System is systematically developed with One-Click-Functions added. The objective is to simplify and automate more complicated service operations. With just a few clicks, and without needing to search information from technical service documentation, users are able to conduct useful procedures easily and quickly.

LIST OF PROCEDURES:

- Clearing inspection message
- Activation of cruise control
- Deactivating passenger airbag
- Opening, closing electric handbrake
- DPF emergency regeneration(1.4,1.9,2.0,2.5 TDI pd)
- DPF emergency regeneration (3.0 TDI)
- Throttle adaptation - Otto engines with drive-by-wire
- Injector coding 2.7/3.0 TDI common rail
- Change units in instrument cluster
- Change language in instrument cluster
- Bluetooth activation Audi q7/A6 model 4f
- Basic setting of xenon range controller
- Calibration of g85 sensor
- Erasing / programming remote controllers
- Enable / disable nordic mode (low beam as daylight running lights)
- Test fireup of webasto (pq35 – Caddy / Touran / Golf / Tiguan / Passat)
- Filling up brake system (mk60/70 - Golf V / Passat / Altea / Leon)
- Turning on pre-fuel pump (eg. For bleeding)
- Enable / disable automatic door-lock
- Xenon-lights coding (with and w/o shutter)
- Enable / disable seatbelts warning light
- Recalibrating g450 pressure DPF sensor
- Enable / disable "systemtest" for abs/ESP
- Tires pressure sensors coding (Passat b6/ Passat cc/ Jetta)
- Battery coding for battery manager
- Key coding for immo iv (pq35 / 46)
- Unlocking of blocked webasto
- Disable aps-function of front wisher
- Calibration of ESP acceleration sensor g200
- Calibration of ESP pressure sensor g201
- Change microphone gain in nokia handsfree set
- Calibration of ESP acceleration sensor g251
- Setting brake pad tickness - Audi a8
- Activating convenience automatic window opening
- Activating automatic side mirror flipping
- Activating coming-home / leaving home functions
- DPF adaptation after replacement 2.0/2.7/3.0 TDI / vw crafter
- DPF checking 2.0TDI / 2.7-3.0TDI
- Activating graphical park assistant Audi A6/Q7
- LHD/RHD ESP coding
- Injectors checking 3.0/2.7 TDI
- Unlocking eject button in mmi dvd drive
- Coding mmi device list
- Activating/deactivating tire pressure monitoring Audi A6 model 4f
- Pump-jet checking 1.9/2.0 TDI
- Recoding abs/ESP variant (usa/eu)
- Adaptation new engine ECU for immo3 systems
- DPF emergency regeneration vw crafter, engines cexx, bix
- ESP sensor calibration g200,g202,g251 in cars newer than 06.2007
- Adaptation of turbocharger in 2.7/3.0TDI engines
- Setting up service interval display
- Acceleration measuring
- Recoding of door electronics variant (LHD/RHD)
- Adaptation ESP ECU for DSG gearbox in Audi A3 8p mj2006
- Activation/deactivation mmi hidden service menu
- Adaptation of flap motors in 3.0/2.7 TDI engines
- Reading mileage from edc15
- Testing mass air flow meter g70 in TDI engines

- DPF emergency regeneration in BLE engines - Touareg 5.0 TDI
 - Setting up pwm value for front led daylight running lights - Audi A6 2009
 - Setting up idle speed in gasoline/TDI engines
 - Unlocking tv function in mmi 2g/3g systems
 - Upload parameter data
 - Function check of EPB
 - Activation of service menu in rns510 navigation system
 - Activation of DRL using fog lights in BCM system
 - Instruments recode for Audi A6/q7 my2009 from us-units to eu-units
 - Recode of tv -tuner from us specs to eu in Audi a8/A6/A4 8k
 - Chip tuning test
 - Read immobilizer pin from edc15p+ / edc16
 - Adaptation of pneumatic suspension system in Audi a8 4e
 - Adaptation of g336 sensor (intake manifold's flaps) in 2.0tfsi BPY/AXX
 - Updating vehicle data in airbag unit 8.4 Audi A4 B6
 - Adaptation of turbocharger sensors used in CBAB CBAC 2.0TDI CR engines
 - Adaptation of injection pump electronics to engine ECU for 2.5v6 TDI engines
 - Adaptation of EGR valve in gasoline engines
 - Adaptation of start quantity in TDI vp engines
 - Coding of ESP in Passat B5 gp (2000)
 - Activation/deactivation of brake pads warning light in Audi A3 8P / Audi TT
 - Activation of needle sweep, laptimer, gear change indication in 2008 Audi A3/TT
 - Coding of ESP mk60ec1/mk25x in Golf 6, Passat, Octavia II etc (*)
 - A4/a5/A6/a8 Touareg bcm2 recode led/bulb USA/EU
 - Adaptation of DCC suspension in Golf VI
 - Adaptation of various DSG parameters
 - Adaptation of minimal injection quantity in 1.6TDI CR engines
 - Clearing the DTC "software version management check" in mmi3g/3gp systems
 - Programming the BCM outputs in pq35 cars
 - Start prcoder feature
 - Total de/activation of ESP mk60ec1
 - Start/stop deactivation in pq26/35/mqb/mlb cars (Polo/Fabia, Golf 6/7, Octavia 2/3, Leon 5f, Audi A3, TT, A4, A6, A7, A8 etc.)
 - Programming of Audi adaptive suspension wabco (Audi A6 4F, A8 D3)
 - Programming characteristics of power steering in pq35
 - BCM PQX5 (Golf, Polo, Ibiza etc) programmer
 - Reset scr fluid level in euro6 TDI engines
 - Activation automatic folder mirrors in UDS door control units Passat / Tiguan GP / Jetta
 - ODX FRF SGO flashfile dumper
 - Vimmanager (*)
- (*) additional payment
