

Action in the event of a fire

First,
rescue the injured and
those in danger.
Go to a safe place yourself.

Report
the fire to the emergency
center at 112 for a safe place.

Extinguish
fire or close it by
closing doors.

Guide the
fire department to the scene.

Remember!

- There is only a couple of minutes to survive.
- Get a home fire alarm that reacts to smoke before it has time to spread throughout the home.
- Thanks to the fire alarm, residents have time to leave for safety.
- Make sure that the alarm always has a working battery.
- Remember that the fire alarm does not alert the fire brigade.
