

If you hear a general danger sign ...

**Go indoors - Stay
inside.**

Close -
doors, windows and air conditioning.

**Open the
radio** and wait for instructions and follow them.

Avoid using your phone.

Do not leave the area
without being instructed by the authorities to avoid danger on the way.

A common danger signal is the rising and falling siren sound given at intervals of about 7 + 7 seconds by a population alarm or loudspeaker.
