

Mega-Paula - Drag Show Artist www.megapaula.com

Finland's most famous Drag Show-artist Mega-Paula began her career already at the age of 18 in 1979 with performances at the Centrum Restaurant in Vaasa.

As in those days the Drag Show concept was relatively new and unknown in Finland, Mega-Paula proceeded with her shows perhaps a little slowly in the beginning, but at the same time making progress surely. As a result, the interest and popularity grew, and in the middle of the '80s she had her first big wave of success in the city of Tampere.

The audiences were captivated by several charming characters in the shows, but right from the beginning it was the Paula Koivuniemi character (Finland's top female artist for over 4 decades) that became the most successful in Mega-Paula's shows. The best bits experienced by the audiences are when Paula herself has appeared on stage to 'perform' alongside Mega-Paula, and Paula has even pre-recorded her stage comments in studio for 'Mega' to use in her performances.

Living and working in Tampere until 1989, Mega-Paula kept touring around her home town, as well as all over Finland from small pubs to the biggest hotels in the country.

After a couple of years away in Spain and Greece, 'Mega' returned back to Helsinki Finland in the middle of the '90s and continued entertaining the audiences with her amazing Drag Shows. By this time Drag Shows had become more known in Finland, and as a result Mega-Paula's popularity grew heavily and she started to tour around the country again.

This was also the time when media became very interested in Mega-Paula and soon she began receiving invitations to perform at high end VIP parties, and Paparazzi started to follow her career and every move.

In addition to stage shows, performances on many TV and Radio programmes keep Mega-Paula regularly busy these days.

The start of the new Millennium handed Mega-Paula new challenges and new glamorous work opportunities such as:

Perhaps the highest acknowledgement of her wonderful career that Mega-Paula has received is from Paula Koivuniemi and Ilkka Vainio from Edel- record company, and that is the Gold Disc of Paula's 'Timantti'- album ('Diamond'). The disc's golden plate has a text saying "Congratulations to the Diamond Artist Mega-Paula, 30 years of first class performances".
