SHOES THAT FEEL GOOD

Discover the world of FinnComfort® for yourself – find your favorite model and spoil your feet. Many of the latest high quality brand name products are just waiting to be discovered. We design and manufacture first-class shoe solutions for discerning customers – Made in Germany.

We will always seek to live up to our reputation for offering functional yet comfortable shoes of the highest quality. "Made in Germany" is a seal of quality that represents performance, tradition and innovation. Our shoes are manufactured in Hassfurt am Main, Bavaria, Germany.

As a German manufacturer, we are very aware of our special responsibility. Right from the beginning, competent, experienced makers of orthopedic shoes are involved in the development of our shoes, and also support the expansion of our product range to meet the needs of demanding customers and their sensitive feet.

At FinnComfort®, every single step of the production process – from designing the prototype to production and the quality control that follows – is carried out by the company itself, with great care and attention to detail. We carefully and conscientiously select the materials that we use in our shoes, sourcing them exclusively from Germany and other European countries.

Our product range is very diverse, enabling us to meet your high expectations. We ship our shoes from our own warehouse and are constantly adjusting our product range to meet current demand.

This catalog includes only a selection of our current range. Please pay a visit to one of our specialty retailers to receive competent advice about selecting the shoe that is right for you.

We wish you many years of comfortable walking and standing in your FinnComfort® shoes.

WITH OUR SOFT FOOTBED

FOR AN ESPECIALLY
GENTLE STEP

ALL SOFT MODELS ARE MADE
WITH THE TRIED AND TESTED
FINNCOMFORT® SOFT FOOTBED.

The soft footbed, a cushioned, a super comfortable footbed,
features an extra layer of foam.

This long-lasting material consisting of resilient memory
foam promises a very soft step. It is ideal for sensitive feet,
because the entire body weight is gently absorbed at every step.

SHOES

THIS IS HOW YOU WALK IN COMFORT

These models are impressive for the remarkably light weight of their outsoles. The lightness is achieved through the "EVA" material, with millions of tiny air chambers. The excellent step cushioning guarantees extraordinary walking pleasure with each step.

WHEN MAKING OUR FINNCOMFORT® SHOES, WE USE NATURAL MATERIALS.

1 LEATHER

Vegetable tanned

During vegetable tanning, the tanning agents are derived from various woods and barks. Free of chemical additives – eco-friendly for a healthy (foot) climate.

2 NATURAL RUBBER

Ecological and sustainable

For producing latex, the rubber tree's bark is scored to obtain the sap. This natural product is used in the FinnComfort® footbed as the basis for the resilient cushioning material and as a binder and adhesive for cork footbeds and top leather.

3 CORK

The fascinating noble natural product

The sustainable raw material is extracted from the bark of the cork oak tree and has very special properties: It is lightweight, flexible, absorbs shocks and resists most bacteria. It also insulates against cold and heat. Precisely why cork is the main component of every FinnComfort® footbed.

4 JUTE

The golden fiber

The glossy golden jute fibers in the FinnComfort® footbed ensure additional stabilization and better humidity absorption. This material is specially planted for harvest. Thus, resources are not destroyed, but specially created.

BOOTS

FITS WELL AND KEEPS OUT THE COLD

WARM, COMFORTABLE PADDING THROUGHOUT THE COLD SEASON.

A warm lining made of cozy lambskin or natural wool provides excellent natural warmth in winter.

The soft material adapts perfectly to your feet and forms an insulating layer of air that warms wonderfully without making your feet sweat. Because of their natural function, lambskin and wool work as a climate control system, that regulates the temperature and humidity.

So bring winter on!

In wind and any weather, SympaTex® is especially comfortable. Sheer, tear-resistant SympaTex® membrane makes leather shoes watertight on the outside but breathable on the inside. This provides a pleasant foot climate.

The models on this page are equipped with SympaTex® Membrane.

LEATHER Bosco
SIZE 3 - 12

Our feet are part of the body that takes the most punishment. They carry our entire weight and are constantly stabilizing the body's center of gravity. Finnamic's rockered heel design encourages gentle and low-impact heel strike and gently and effortlessly guides the motion impulse from the lateral foot via the medial fore-foot to the big toe. The broad, flat and stable mid-section may relieve unnecessary strain on the foot while stabilizing the body. Finnamic provides optimum balance and fit.

Soft materials, shock absorbing outsoles and a padded footbed let you stand and walk comfortably and meet your special orthopedic needs. Special consideration is given to the needs of those suffering from arthritis and diabetes. For example, the shoes offer plenty of room for the toes. The width of the forefoot is generously cut and the hold of the heel is very secure, ensuring optimal guidance for your foot.

PREVENTION SHOES

PREVENTION AND SUPPORT

PREVENTION IS BETTER THAN
A CURE – WITH THE PREVENTION
SHOE FROM FINNCOMFORT®.

Sensitive pressure points are unpleasant and make walking and standing difficult. Therefore, after intensive research in collaboration with doctors and orthopedic technicians, FinnComfort® has developed the prevention shoe.

These special FinnComfort® models are made of extra-soft leather. Additionally, our prevention shoes have no pressing seams, but greater width and additional cushioning in the upper and instep.

Heel counters lengthened on both sides give your foot optimal guidance and ensure a natural rolling movement.

FINNORTHO OFFERS OPTIMAL ALL-ROUND PROTECTION

189 million people worldwide live with diabetes. When the disease is diagnosed too late or poorly controlled, it may lead to the possibility of developing diabetic foot syndrome. Vascular and neurological abnormalities frequently damage the foot. Neuropathy, decreased blood circulation through arteries of the lower extremities, wounds that do not heal, even amputation of the foot is not uncommon in a diabetic. Well fitted and high quality extra depth therapeutic walking shoes can help counteract this syndrome before foot ulcers occur or an amputation becomes imminent. If you suffer from repeated foot sores or have wounds increasingly difficult to heal, then FinnOrtho by FinnComfort® might be the perfect shoe for you.

- 1 Anatomically designed, softly cushioned vamp to protect toes and forefoot from pressure points
- 2 Seamless textile lining in the forefoot is antiseptic, breathable and easy-to-clean
- 3 Wide opening allows more room for easy foot entry
- 4 Cushioned collar and tongue for extreme comfort prevents the danger of pressure sores
- 5 Extended heel counters guarantee stability and heel motion guidance
- 6 Raised rear topline reduces heel slippage, even with thicker insoles
- 7 Shock absorbing rocker sole encourages a softer heel strike and smooth natural gait
- 8 Wide and level surface for a secure and relaxed stand
- 9 Midsole/Optional reinforced rigid midsole also available
- 10 Rocker tip promotes the natural forwardrolling action

An ultra soft footbed with an antiseptic lining and stable support system is available upon request and sold separately. Thus protected and minimally stressed, wounds can heal and infections can be avoided.

With antiseptic Finntara lining in the forefoot area

REMOVABLE FOOTBEDS

The Super Comfort Footbed

The anatomically-shaped Super Comfort Footbed enhances the natural heel-to-toe rolling motion via the heel, lateral foot, medial forefoot and big toe.

The all natural Classic Comfort Footbed may be removed overnight for airing. It can also be hand washed with mild soap and warm water 30°C / 86°F.

The Reflex Zone Massage Footbed

The reflex zone massage footbed is like a little daily spa treatment. It provides a gentle massage for the sole of your foot. Start by wearing them for five minutes a day, then gradually increase the time to as much as an hour a day (no more).

Reflex zone footbeds are not suitable for diabetics!

The Reflex Zone Massage Footbed can be replaced again with the Super Comfort Footbed.
The Reflex Zone Massage Footbed may not be included in certain countries. Item sold separately.

LONG LASTING AND COMFORTABLE

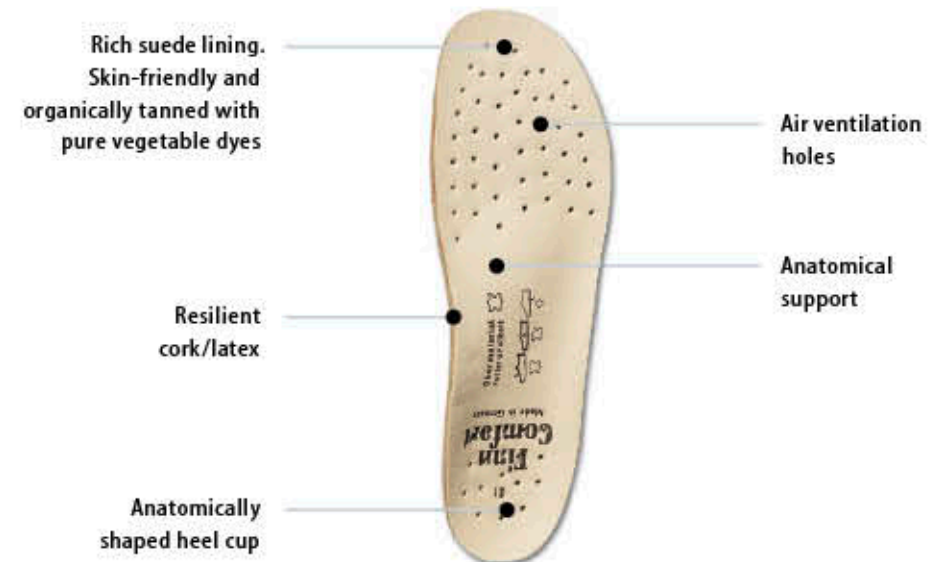

- 1 Pleasant to wear thanks to padded topline
- 2 The anatomically formed, extremely comfortable footbed makes walking comfortable.
- 3 Breathable thanks to finest leather lining
- 4 Flexible toecap eliminates pressure points
- 5 Foot motion guidance thanks to the solid heel counter
- 6 Every step is cushioned by the concave depression in the heel base and shock-absorbing materials in our outsoles
- 7 Air circulation and climate control thanks to ventilation channels in all closed hand-stitched shoes

THE FOOT'S NATURAL ROLLING MOTION

SPECIAL FEATURES

SOCKS THAT SIMPLY FEEL GOOD

Active support and anatomically proper pressure distribution support healthy circulation and help prevent vein problems. These socks are also ideal against swelling of the legs when standing or sitting for long times and help prevent travel-related venous thrombosis. The comfortable stocking for everyday use.
