NOTHING BUT RAW.

Fat Pipe's lightest stick for players whose passion is to feel the ball. Super fast and responsive carbon shaft with 11 layers of untreated finishing gives you keys to control the ball accurately and smoothly.

New Raw Concept Low Kick shafts are combined with Raw Concept lightness and Low Kick technology from the K.O. series. With superlight low kick point shaft you get faster and more controlled release for your shots which make it easy to shoot in thigh space.

DESIGNED FOR SHOOTERS.

K.O. Series is designed for shooters. 100% Carbon shafts with stabilizing carbon fibers makes shooting easy and superfast. Stabilizing carbon fibers makes kick point lower and gives you faster and more controlled release for your shots. Also fibers lower the centerpoint of the mass giving the optimal balance for shooting and controlling the ball. Knock out - the best way to score.

MATERIALS

PP BOOST
PP Boosted! Our PP Boost blade material takes PP blades to the next level. PP Boost is more slippery and stiffer than regular PP, but with same ultimate ball control.

PP Boost offers ultimate ball control for ultimate dekers. Polypropylene is material with ultimate touch to the ball. PP keeps its shape well, but need proper warming when hooking the blade. PP is durable and medium stiff material with ultimate ball control.

PP HARD
NEW PP Hard is 20% stiffer and more slippery than PP Boost, with same ultimate ball control as PP and PP Boost.

PE
The regular one. Polyethylene material is durable and medium stiff material with good ball control.
