## BENEFITS

### Treatment of sickness

Rauten Sairauskassa (Raute Sickness Fund, later "Sickness Fund") is a sickness fund meant in the Health Insurance Act, which means that **all compensations and daily allowances based on the Health Insurance Act will be applied from and reimbursed by the Sickness Fund**, such as daily allowances for the disability caused by a sickness, maternity, paternity and parental allowances as well as all compensations of medical treatment. In addition, the Sickness Fund reimburses additional benefits of the remainder of the total costs and the compensation based on the Health Insurance Act as follows:

- 75% of the sleep apnea examination
- 75% of the doctor's fees
- 100% of the medicines (medicines prescribed by a professional doctor for the treatment of a sickness that are compensable under the Health Insurance Act; the compensation is calculated by using the reference price, which is also the basis for the Health Insurance Act compensation.)
- 75% of the laboratory test and pathology samples if they are prescribed by a professional doctor
- 75% of radiological examinations
- 100% of travel costs (travels caused by the sickness or required by the treatment)
- 75% of the total physiotherapy costs.

A compensation is reimbursed if the costs are compensable according to the Health Insurance Act, i.e. for instance most over-the-counter drugs, massage or treatment by a chiropractor will not be compensated.

In addition, compensation will be paid for:

- Fee charged by a hospital outpatient clinic or municipal health center
- Hospital bed-day fee up to the amounts defined in the lowest payment category up to 90 days if the necessity for hospital care has been caused by same sickness
- Fee of a private hospital according to the Board's consideration (Please leave an application in advance)
- Bandages, aids and treatment devices prescribed by a doctor up to EUR 100 in a year and for the same aid an equal sum in every two years.

## Dental care and eyeglasses

In order to be entitled to receive additional compensation from dental care and eyeglasses the person must have been a member of the Sickness Fund for two years. The compensation for dental care is EUR 350 annually and the compensation on eyeglasses is EUR 300 in every two years. A lump-sum compensation for laser surgery is EUR 300.

## Funeral grant

The funeral grant amounts to EUR 749.

## APPLICATIONS FOR COMPENSATION

**Both the compensations and additional benefits by virtue of the Health Insurance Act will be reimbursed by the Sickness Fund. When applying for compensations by virtue of the Health Insurance Act you must fill in and sign an application.**

**You must pay the fee charged by a private dentist first and then deliver the application for compensation to the Sickness Fund.**

**Kela does not approve that the compensation would be paid directly to the service provider in case there is no direct debit agreement. There is a compensation ceiling considering the dental care, for which reason no direct debit agreement can be made with dental clinics.**

When visiting any other pharmacy than one of those with which the Sickness Fund has agreed on invoicing, you must pay a full price for the medicines and then apply for the compensation from the Sickness Fund. In that case, please attach a compensation application, which can be found in pharmacies, the Sickness Fund or at Kela's website <https://www.kela.fi/lomakkeet>

Please remember that a member of the Sickness Fund must apply for compensation by virtue of the Health Insurance Act also during a period when he or she would not get any additional benefit (for instance during military service, nursing leave, temporary lay-off, waiting period concerning dental care). **Kela offices do not reimburse any compensation for the members of the Sickness Fund.**
