<b>Description</b>	Steel construction, made of steel profiles protected against corrosion with powder-coating with any RAL colour. The integrated height regulation mechanism allows to set the height of the ring on both 260 and 305 cm.
--------------------	---

## IV. Product Purpose

Construction is designed solely for playing basketball and installation in sport halls. The purpose of the construction is to install basketball backboards and basketball rings.

## V. Instruction of use

1. Installation and service can be performed only by the producer or dealers appointed by the producer.
2. The construction should be inspected regularly (minimum every 12 months), the inspection can be performed only by the producer or dealers appointed by the producer.
3. Construction is designed solely for hanging a basketball backboard and cannot be used for other purposes.
4. User should check occasionally the construction and whether the screws are fastened correctly. If the construction acts strange (i.e. atypical noises, damages or deflections) it's further usage is strictly forbidden. Any failure should be reported to the producer or its authorized dealer.
5. Backboard should be cleaned with clean foam or cotton cloth using water with delicate detergent without any texture that can scratch the surface of the backboard.
6. The construction is equipped with height adjustment mechanism, so the trapezoidal screw should be periodically (once every 6 months) lubricated with graphite grease.

## VI. Packing

All elements are protected for transport with bubble and stretch foil.

## VII. Warranty

1. Producer issues 24 months warranty from invoice date.
2. Defects or damages that occurred not due to users fault will be repaired in the warranty period by producer or authorized dealer.
3. Warranty does not cover:
  - proper maintenance of equipment including periodic tightening and fastening screws and other installation elements. .
  - mechanical and chemical damages caused by improper use or maintenance (e.g. self repair or using improper chemical compounds for cleaning).
  - damages caused due to users or third party fault including acts of vandalism.
4. Other factors not listed in the warranty are regulated by International Civil Laws.
