EXTREME SERIES

## TAKE OUTDOOR COMFORT TO THE EXTREME.

**Quattro Extreme Series seating offers outstanding performance, style and value.**

The word is out! Quattro Extreme delivers superior comfort for special fans and VIPs. This seat combines the luxury of an upholstered indoor chair with the durability of an outdoor stadium seat. So it's easy to create a first-class suite in your open-air seating arena.

**And that could be the ticket to creating a new revenue stream.**

Like all Quattro products, the Extreme is different by design. Rugged and weather-resistant, it offers enduring comfort, performance and beauty. Choose from a wide range of colors to complement your stadium and team colors. Durability has never looked better! From rust-proof stanchions to marine-grade fabric, the value is in every detail.

- Solid cast aluminum stanchions won't rust, even if dented or nicked. Each component is finished individually before assembly which ensures full encapsulation for maximum protection against the elements.
- Stainless steel hardware is corrosion-resistant.
- Exterior-grade plastic and marine-grade Naugahyde resist UV light and mildew.
- A unique vented seat pan and seat cover promote quick drying.
- Inner seat and back panels feature marine-grade plywood made from Okoume wood veneers (naturally resistant to moisture and mildew) and water- and boil-proof (WPB) glue.
- Only Gore-Tex® thread, favored by the sailing industry, is good enough for the Extreme.
- Safety is part of our promise. Our exclusive seat back design extends below the seat to keep toes from getting pinched. Hardware and fasteners are concealed for an attractive design that's tamper-proof, too.

And Quattro Extreme seating is backed by the industry's best warranty.

**Rain or shine, these stylish upholstered seats stand up to the elements.**
